

Pennsylvania State Legislature Public Hearing

PART 2 - WITNESS TESTIMONIES

JUSTIN KWEDER

- Volunteer Certified GOP Canvas Observer

1 “ Due to the distance of the workers from the erected fences it was **IMPOSSIBLE FOR ME OR ANY OBSERVERS TO SEE**” what the workers were doing with any type of specificity.

KIM PETERSON

- Canvasser (Republican Representative)

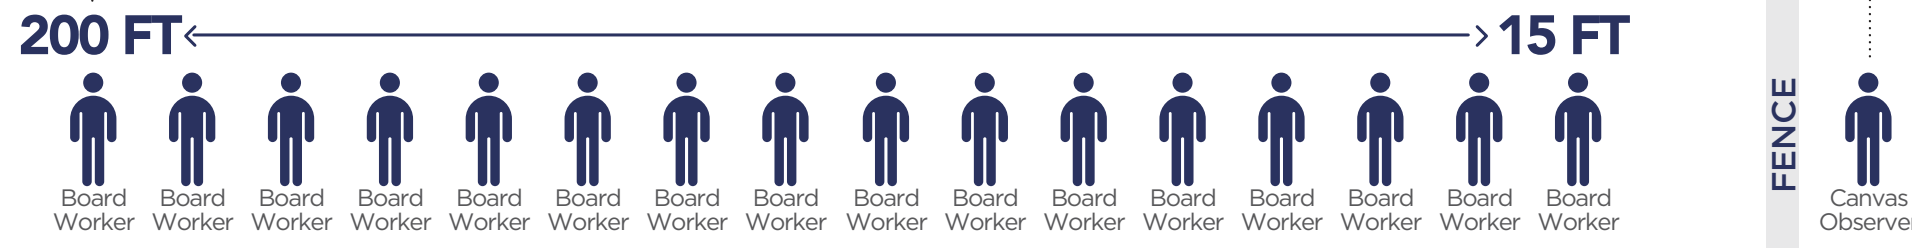

“ **15 -20 FT** from any of the representatives, and that was the closest people opening the ballots. There were people that were 50-100 feet from us... and **YOU COULD NOT SEE AT ALL**” the envelope, the ballot itself.

GREGORY STENSRTOM

- GOP Poll Watcher

“ **USBV CARDS BEING UPLOADED TO THE VOTING MACHINES** by the voting Machine Warehouse Supervisor on multiple occasions... **NOT BEING OBSERVED.** He's not part of the process, and he's walking in with baggies... and he was sticking these USBV into the machines... That happened over 24 times. ”

“ I observed in the locked room in the back office was **70K UNOPENED MAIL-IN BALLOTS...** by that time the mail-in ballots had already been counted—120,000 mail-in ballots have already been counted, posted and done. So, my question is, “Where do the 70,000 ballots go?”, and nobody knows. ”

2 “ The pink highlighter (ballots) could not be read by the scanners... The workers individually were to fill in the correct highlighted ovals with dark pen. **NO OBSERVATION— THEY WERE MAKING THOUSANDS OF BALLOTS.**”

LEAH HOOPS

- Poll Watcher

“ We were granted **5 MINUTES EVERY 2 HOURS** in a chair 20 feet from any physical ballot. ”

PINK HIGHLIGHTED DUPLICATE BALLOTS

HAND FILLED IN DUPLICATE BALLOTS
